

BOYCOTT CALTEX

DON'T USE FUEL THAT FUNDS GENOCIDE

Caltex is owned by the Chevron corporation, one of the world's largest fossil fuel companies and an active participant in the genocide and apartheid of occupied Palestine.

Palestinians have called for a worldwide boycott of Chevron fuels, including Caltex, Puma and Texaco.

Chevron's gas provides electricity for illegal settlements in the West Bank, as well as Israeli military bases, police stations and prisons, notorious for their imprisonment and torture of thousands of Palestinians.

Chevron supports Israel's war machine, responsible for the murder of an estimated 180,000* Palestinians, with huge tax revenues.

This is over and above Chevron's shocking record of environmental destruction and violence against indigenous communities.

South Africa's BDS campaign against apartheid proved that boycotting works!

You can play your part by refusing to buy Caltex fuels
